EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: In claim 1, line 6, "on" has been deleted and replaced with --one--.

2. The following is an examiner's statement of reasons for allowance: in regard to claims 1 and 11, a stopper function that limits the external force so that the pressure to the pressure-sensitive portion of the pressure detecting means is smaller than a predetermined threshold. The prior art does disclose having pressure sensors but does not disclose a stopper function to limit the external force.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
